

VTU SEE Dec 2024: Computer Networks [BCS603] Paper

Visvesvaraya Technological University - SEE Examination

--- VISVESVARAYA TECHNOLOGICAL UNIVERSITY BELAGAVI ---

Sixth Semester B.E. Degree Examination, Dec 2024 - Computer Networks [BCS603]

Time: 3 Hours | Max. Marks: 100 | Scheme: 2022 CBCS

--- MODULE 1 ---

1. [a] Draw and explain IPv4 Datagram header format in detail. [10M]

[b] Explain the operation of ARP and DHCP protocols. [10M]

--- MODULE 2 ---

2. [a] What is Count-to-Infinity problem in Distance Vector routing? How to prevent it? [10M]

[b] Apply Dijkstra algorithm to find shortest path from source router A. [10M]

--- MODULE 3 ---

3. [a] Explain TCP 3-way handshake connection establishment and teardown. [10M]

[b] Describe TCP Congestion Control mechanisms: Slow Start, AIMD, Fast Recovery. [10M]
